2021

Key Insight

Industries with higher AI adoption levels tend to show elevated automation risk, while salary changes remain marginal across most sectors. This highlights an increasing skill gap rather than immediate wage displacement.

Automation Risk by AI Adoption Level

AI Adoption Level	Average of Automation Risk %
0.01	52.20
0.05	67.95
0.06	51.52
0.07	34.93
0.09	64.54
Total	**46.18**
